MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested, to avoid this inconvenience, that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by J. Curwen & sons, ltd., London, England. Class C, XXc, no. 183304, June 12, 1908; 2 copies received June 13, 1908."

A-HUNTING WE WILL GO; words by Fielding, music arr. by Granville Bantock. 4to. (Choruses for equal voices, no. 1148.) [14061

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested to avoid this inconvenience that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry, the statement of the receipt of copies on that date is not repeated, but is understood.

The notice after the first title, if printed in full, would read "Copyright by J. F. Zehnal, Cleveland, Ohio. Class C, XXc, no. 185417, July 16, 1908; 2 copies received July 17, 1908.

MUSICAL COMPOSITIONS

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The index at the end of the CATALOGUE contains title references to all compositions entered under the authors in the CATALOGUE and author references to all compositions entered under the titles in the CATALOGUE.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested, to avoid this inconvenience, that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by F. E. C. Leuckart, Leipzig, Germany. Class C, XXc, no. 186520, Aug. 1, 1908; 2 copies received Aug. 1, 1908."

PART 3:
MUSICAL COMPOSITIONS
INDEX

NEW SERIES, VOLUME 3

Nos. 40-44

OCTOBER, 1908

WASHINGTON
GOVERNMENT PRINTING OFFICE

1908

MUSICAL COMPOSITIONS.

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with *pf.* acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The following abbreviations are used: *pts.*, parts; *sc.*, score; *voc. sc.*, vocal score; *pf. sc.*, pianoforte score; *arr.*, arranged, arrangement; *acc.*, accompaniment; *coll.*, collection; *v.*, violin; *va.*, viola; *vc.*, violoncello; *pf.*, pianoforte; *orch.*, orchestra; *org.*, organ; *guit.*, guitar; *mand.*, mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested, to avoid this inconvenience, that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by J. F. Zehnal, Cleveland, Ohio. Class C, XXc, no. 186559, July 27, 1908; 2 copies received Aug. 3, 1908."

MUSICAL COMPOSITIONS.

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested, to avoid this inconvenience, that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by N. Simrock, G. m. b. H., Berlin, Germany. Class C, XXc, no. 190549, Oct. 2, 1908; 2 copies received Oct. 2, 1908."

MUSICAL COMPOSITIONS.

Arranged alphabetically by authors (composers) or titles. Information contained in the title is not repeated in the collation. Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with pf. acc. unless otherwise stated. Titles reading "Words by," "Music by" are to be understood as songs.

The following abbreviations are used: pts., parts; sc., score; voc. sc., vocal score; pf. sc., pianoforte score; arr., arranged, arrangement; acc., accompaniment; coll., collection; v., violin; va., viola; vc., violoncello; pf., pianoforte; orch., orchestra; org., organ; guit., guitar; mand., mandolin.

The Catalogue of Copyright Entries appears each week. As the weekly issue of Part 3 would necessitate a possible search through 52 alphabets in each year in order to locate the title of any given musical composition, it has been suggested, to avoid this inconvenience, that the alphabet for Part 3 (musical compositions) be made to include all the titles entered during each month, instead of each week, so that a search for any musical work deposited for copyright during the year would require an examination of only 12 indexes instead of 52 as formerly.

To save space the copyright notice after each title is abbreviated. Every entry in the CATALOGUE implies the deposit of copies, the title of no musical work being included in the CATALOGUE unless copies are on file, but if the copies have been received on the same date as the day of entry the statement of the receipt of copies on that date is not repeated but is understood.

The notice after the first title, if printed in full, would read "Copyright by G. Schirmer, Boston, Mass. Class C, XXc, no. 192453, Oct. 16, 1908; 2 copies received Oct. 16, 1908."

INDEX TO PART 3—MUSICAL COMPOSITIONS

[New series, Volume 3, January–December, 1908.]

This index contains the names of the copyright proprietors of all the music entered in the Catalogue during the year 1908. It also contains the names of the composers; but to save space the references under the composers' names are by number only, except where the list includes more than ten numbers, when a sub-alphabet of titles has been given. In cases where all the works of a composer have been entered by the same proprietor, the sub-alphabet of titles of his music appears only under the proprietor, and a cross reference has been made to the name of such proprietor.
